

# I Just Can't Say No To You

Jackie DeShannon

Just look at this mess that I'm in  
Gentle lover, you're a terrible friend  
I swore I'd never get this close again  
But I can't seem to stop myself from fallin'

You wanna come see me tonight  
I've gotta be strong, I know it's not right  
I've gotta hold on put up some kind of fight  
But then I'm namin' the time and the place again

Because I just can't say no to you  
Though I know we'd be better off through  
But my heart won't admit that it's true  
And I just can't say no to you

I guess I never understood  
How somethin' so wrong could seem so good  
But would I give it up even if I could  
If I'm fallin' let me fall with you

Because I just can't say no to you  
Though I know we'd be better off through  
But my heart won't admit that it's true  
And I just can't say no  
Just can't say no

Whoa, just can't say no to you  
Though I know we'd be better off through  
But my heart won't admit that it's true  
And I just can't say no to you

Oh, I just can't say no to you  
Though I know we'd be better off through  
But my heart won't admit that it's true  
And I just can't say no to you

I just can't say no to you ...
