

## Keep Me Warm

Jackie DeShannon

Keep me warm, keep me warm  
Love me any way you know  
I'm so cold and the night is movin' along

Keep me warm, keep me warm  
Try to be an understandin' soul  
Calm me down if I get a little out of control

Down the dark road where we go dreamin'  
Love is always callin'  
And the night is fallin'  
All I wanna do is stay with you

Keep me warm, keep me warm  
Every little way you know  
Love me hard 'til I come to life again

-- Guitar Solo --

Down the dark road where we go dreamin'  
Love is always callin'  
And the night is fallin'  
All I wanna do is stay with you

Keep me warm, keep me warm  
Every little way you know  
You're so good, and you know just where to begin
