

# What Was Your Day Like

Jackie DeShannon

What was your day like?

What was your day like?

I woke up when the sunlight came into my room  
The right kind of weather  
Just for us to take the afternoon  
And get lost together  
Nothing better

I had an orange and coffee a little past nine  
And this morning I knew  
Everything about the day was fine  
I did just what I wanted to  
How about you?

What was your day like?  
Found myself a new kind of lookin' glass  
What was your day like?  
I ran into a friend out of the past

I thought about the things we've done, the two of us  
I could see it so clear  
As I stood there waitin' for the bus  
I was wishin' you were near  
But you're not here

I saw a film and bought a book or two  
In the village I just looked around  
Then I went to try on something new  
What a good thing I found  
I like this town

What was your day like?  
I found myself a new kind of lookin' glass  
What was your day like?  
I ran into a friend out of the past

What was your day like?
