

# Wing Ryder

Jackie DeShannon

With your jeans and boots, and valentines  
I can see you standin' in the rain  
We never tried to keep our passion down  
Now we're just a picture in a frame

Just words of playwright  
Left me no resistance  
Don't forget my heartbreak  
As a point of reference  
Well the sky's on fire  
I can feel my desire  
Wing ryder  
I know you won't stay long  
Wing ryder  
I'm gonna carry on  
Wing ryder  
Moonlight is almost gone

I've been spendin' time in Mexico  
On a jet to Paris and Berlin  
And I've saved some California soul  
I wondered when our paths would cross again

Just words of playwright  
Left me no resistance  
Don't forget my heartbreak  
As a point of reference  
Well the sky's on fire  
I can feel my desire  
Wing ryder  
I know you won't stay long  
Wing ryder  
I'm gonna carry on  
Wing ryder  
Moonlight is almost gone

I'm still takin' pictures black and white  
Dancin' to the same old Rollin' Stones  
There's somethin' to be said for Jersey nights  
And the feelin' nothin' could go wrong

Just words of playwright  
Left me no resistance  
Don't forget my heartbreak  
As a point of reference  
Well the sky's on fire  
I can feel my desire  
Wing ryder  
I know you won't stay long  
Wing ryder  
I'm gonna carry on  
Wing ryder  
Moonlight is almost gone.
