

## Would You Like to Learn to Dance

Jackie DeShannon

Would you like to learn to dance?  
Well, I can show you that  
Here's a book with all that you need to know  
We can draw Arthur Murray patterns here on the floor  
And all we have to do is follow  
And then we'll dance around the room a while  
You can lead now if you want, you're doin' fine  
Nothin' I won't do just to see your smile  
Dance across your face in perfect time  
Dance across your face in perfect time

Would you like to learn to sing?  
Well, I can teach you that  
Here's an old tune good for the start  
You can sing all the high parts if you really try  
And I'll play along on my guitar  
Then we'll sing together for a little while  
Let the harmony go ringin' by  
And you sing so much better when you sing with a smile  
All the notes come out so sweet and high  
All the notes come out so sweet and high, high, high

-- Guitar Solo --

Would you like to learn to love?  
Well, that's somethin' else again  
I can show you how to sing and smile and dance  
Oh, but I have no keys to open your heart  
And no way I can make you take the chance  
So, we'll dance around the room, oh once again  
Sing a song or two to pass the time  
And smile along and if you really want to  
Try a little lovin', I don't mind  
We can try a little lovin', I don't mind
