

King David

Jackie Hill Perry

(I Project)

Yeah, King David
When I ran into a giant, I slayed it
Try to stop me at the line, I fade it
I was already up like Davis
I ain't livin' off luck, I prayed it
I ain't stressin' off sins, He paid it
I don't need "23" printed on my back
'Cause you know I'm with the all-time greatest

Yeah, ayy, what is a titan to a man who's finished with fightin'?
On strike from strikin', and it pays off like a stipend
Blood pressure's low when I step before them vicious, cold Vikings
No pedestal, I stay low and pebble throw, I win
A giant killer, tiny by design because my God is bigger
Dragon slayer, I been signed and sealed so I know I'm delivered
Who that yellin' out there, tellin' 'bout His powers? My crew
The strong tower, do you vow to take 'em, be like, "I do"

Yeah, King David
When I ran into a giant, I slayed it
Try to stop me at the line, I fade it
I was already up like Davis
I ain't livin' off luck, I prayed it
I ain't stressin' off sins, He paid it
I don't need "23" printed on my back
'Cause you know I'm with the all-time greatest

Man, run it back like I'm bein' resuscitated (Hello?)
In the field, I ain't know that I was trainin' (I was trainin')
I'm in the field where your brothers get to hatin'
They can get a little rock 'cause the giants need slayin'
Like, dance like that, know that I'm chosen, and, yeah, that's a fact
Yahweh on my brain like I'm cuttin' through tracks
And y'all way got me trippin', so I'ma do me
Hold up, girl, let it breathe (Huh)
They callin' me fam, overlookin' me, man
See the eye of God view the unseen
I hit my dance for the Lord up above
Though I walk through the valley, I know You and me
That's just the way that you walk and the way that you talk when you steppin'
' with big G-O-D
I had to move a lil' different, He been too consistent, ain't stressin' off
no Philistines

Yeah, King David
When I ran into a giant, I slayed it
Try to stop me at the line, I fade it
I was already up like Davis
I ain't livin' off luck, I prayed it
I ain't stressin' off sins, He paid it
I don't need "23" printed on my back
'Cause you know I'm with the all-time greatest

Dead to my sin, I did it again and did it again and did it again
Who gonna set her free? She's a debtor, see

She is better and lettin' the devils be
It's incredible, the level a debtor reach, it's competitive
At the drop of a dime, ain't pretty, He led the three
With 'em, tellin' them rebels it's Hell, read Jekyll & Hyde
You've gotta be honest, you've gotta be tired of phonics
You skippin' them letters and led you to sonics
The prophet's a psalmist, I promise they got it
You better than this, give Him the list, He better than Nick
This ain't no naughty or nice, we bet you been blessed with the gift
Wretched and careful of guilt

Yeah, King David (David)
When I ran into a giant, I slayed it (Slayed it)
Try to stop me at the line, I fade it (Fade it)
I was already up like Davis (Davis)
I ain't livin' off luck, I prayed it (Uh-huh)
I ain't stressin' off sins, He paid it (Dept)
I don't need "23" printed on my back
'Cause you know I'm with the all-time greatest

Como Rey David, desde cero yo empecé
El me dio el talento, yo solo lo administré
Para ser leyenda joven ya me registré
La cruz está en mi espalda, no hace falta un 23
