Free At Last

Jackie Lomax

Well I knew that my leaving would hurt you But I carried you with me in my heart One of these fine days I will reconcile the past When my soul is free at last When my soul is free at last

Well you knew that my spirit was restless
And my heart resided in another land
Now when we meet again
I'm sure we'll have a blast
When my soul is free at last
When my soul is free at last

Well we knew that our love was ending You gave me the freedom to depart Maybe the next 25 years Won't go on by so fast When my soul is free at last When my soul is free at last
