

# Long Goodbye

Jackson Dean

You say you want me and, then, you don't  
You got one foot out the door, while the other one's walking me home

If you get a little lonely, just let me know  
Just lock the front door, leave the back porch light on

Well, good girl, dang, hell  
We had a good thing  
Played a good game 'til the good game played out  
We had a good ride  
Caught me on a "good night"  
If you wanna have a good time  
I'm down  
We had a good run  
Had a good fun  
Good pail  
In the well  
But the well ran dry  
Let's wrap it in a bow  
End it on a good note  
What you say?  
Let's have a real good long goodbye

Baby, baby, what's your hurry?  
It's worth that wait  
If we drag it on out  
You know I got no complaints  
Don't you worry, if the cowboy rides away  
He'll be riding back 'round  
When the sun comes down  
The next day

Well, good girl, dang, hell  
We had a good thing  
Played a good game 'til the good game played out  
We had a good ride  
Caught me on a "good night"  
If you wanna have a good time  
I'm down  
We had a good run  
Had a good fun  
Good pail  
In the well  
But the well ran dry  
Let's wrap it in a bow  
End it on a good note  
What you say?  
Let's have a real good long goodbye

If you get a little lonely, just let me know  
Baby, lock the front door, leave the back porch light on

Well, good girl, dang, hell  
We had a good thing  
Played a good game 'til the good game played out  
We had a good ride  
Caught me on a "good night"

If you wanna have a good time  
I'm down  
We had a good run  
Had a good fun  
Good pail  
In the well  
But the well ran dry  
Let's wrap it in a bow  
End it on a good note  
What you say?  
Let's have a real good long goodbye

Goodbye  
Goodbye  
Goodbye  
Goodbye
