

# Superstitions

Jackson Dean

I keep an acorn in a window in case lightning strikes  
To help me keep you safe when you're dreaming at night  
I never bury a nail after sundown  
One more little thing to help keep you around

Superstitions, do all that I can  
I put four leaf clovers beside your night stand  
Superstitions, they're tried and they're true  
I'm tryna keep luck on my side to keep you

I hung up a lone star and painted it green  
To keep our love growing 'cause that's all that I need  
I'll buy every last horseshoe that I'll ever find  
Whatever it take to keep you by my side

Superstitions, do all that I can  
I put four leaf clovers beside your night stand  
Superstitions, they're tried and they're true  
I'm tryna keep luck on my side to keep you

There's no confirmation, no way to see  
But them things that I do all help me believe  
That someone like me could have someone like you  
So I keep on doing the things that I do

Superstitions, do all that I can  
I put four leaf clovers beside your night stand  
Superstitions, they're tried and they're true  
I'm tryna keep luck on my side to keep you  
Yeah, I'm tryna keep luck on my side to keep you
