

# Fall Again

Michael Jackson

Feels like a fire  
That burns in my heart  
Every single moment that we spend apart  
I need you around  
For every day to start  
I haven't left you alone

Something about you  
Is there in your eyes  
Everything I'm looking for I seem to find  
All this time away  
Is killing me inside  
I need your love in my life

I wanna spend, time to live in  
I wanna fall with you again  
Like we did, when we first met  
I wanna fall with you again

Fought in a battle, where nobody won  
Left ourselves a mountain to be overcome  
You can't run away, the past is said and done  
I need us to carry on

I wanna spend, time to live in  
I wanna fall with you again  
Like we did, when we first met  
I wanna fall with you again

You tried everything, you never thought of before  
When you live, in your love  
And you give, in your love  
Always give up some more  
Nothing here means anything  
Never did  
I can live, I can breathe  
I can die in my sleep  
Cause you're always there in my dreams

I wanna spend, time to live in  
I wanna fall with you again  
Like we did, when we first met  
I wanna fall with you again

I wanna spend, time to live in  
I wanna fall with you again  
Like we did, when we first met  
I wanna fall with you again

(All of the time, here in my heart)
