

Blue

Jackson Wang

When I'm broke and I'm stressing
I know you'll stay by me
When I feel disconnected
You're all I need

When the water runs dry
I know that I can always come find you
You're the only one that picks me up
When I'm so blue
Can you feel it, too?

When the sky is on fire
I know that I can run wild
With you
When the sky is on fire
I know that I can run wild
With you

When I'm so blue

When I'm broke and I'm stressing
I know you'll stay by me
When I feel disconnected
You're all I need

When the water runs dry
I know that I can always come find you
You're the only one who picks me up
When I'm so blue
And you feel it, too

When the sky is on fire
I know that I can run wild
With you
When the sky is on fire
I know that I can run wild
With you

When I'm so blue
