

Champagne Cool

Fame

I swear it's just a game we play
It's candy crush without the taste
But it's enough to make you chase

Somebody beat me to the punch
And it's more than just a hunch
Notre dame
It might all go up in flames
But they won't
Forget your name
It's by design

Every door has to open
When you're champagne cool
Spread it out hundred thousand
I do what I want to do
Smoke and mirrors and showbiz
It's all fake, but it's true
I take my troubles
With my bubbles and I keep my
Champagne cool

I know it drives you mad
Cause I got a checkered past
Don't ask, and I won't tell
I know her and all her friends
But don't ask them any questions
Don't ask cause they won't tell

Somebody beat me to the punch
And it's more than just a hunch
Notre dame
It might all go up in flames
But they won't forget your name
It's by design

Every door has to open
When you're champagne cool
Spread it out 100 thou
I do what I want to do
Smoke and mirrors and showbiz
It's all fake, but it's true
I take my troubles
With my bubbles and I keep my
Champagne cool
