

I'm coming back to you  
And I hope you don't mind that  
I'm wasting your time  
I know you want me too  
Even though you're not mine  
You got that look in your eyes

Come on, tell me where you at  
When you're back  
I won't keep you up  
Take a nap  
A little gasoline and a match  
You just like it better when it's cold

This ain't what you want  
This is what you need  
Wake up in the morning  
Know just what ya need, need, need, need

I'm coming back to you  
So I really hope that you don't mind  
I know you want me too  
Even though you're not mine  
You got that look in your eyes  
Can you remember when I crossed it?  
Put the sweat up in this  
Like a mosh pit  
Think I'm done up in this

Don't you stop me  
Don't wanna see you throw a fit

You just like it better when it's cold
