

Ooh, oh  
Ooh, oh  
Ooh, oh

You don't call me baby  
You call me my name  
But I keep on hoping  
Nothing has changed  
Yeah

We keep on touching  
But we don't feel  
Feels like you're letting  
Your hands off the wheel  
Ay

What if I just hold on for a while  
Baby, there's no drug quite like denial  
Oh, my  
If this is goodbye

Don't leave me, loving you  
Whatever you do  
Don't leave me, loving you  
(If you tip toe out in the morning, I need a warning)

If you don't feel it, too  
But whatever you do  
Don't leave me, loving you  
(If you're out of this when I'm all in, I need a warning)

Don't leave me, loving you, babe  
Whatever you do, babe  
Don't leave me, loving you, babe  
Ooh, babe

The sun is setting  
In purple and blue  
Is there no getting  
Closer to you  
Yeah, hey

Waking up, strangers  
California King  
Reaching out for you  
To bring you to me  
Yeah, hey

What if I just hold on for a while  
Baby, there's no drug quite like denial  
Oh, my  
If this is goodbye

Don't leave me, loving you  
Whatever you do  
Don't leave me, loving you  
(If you tip toe out in the morning, I need a warning)

If you don't feel it, too  
But whatever you do  
Don't leave me, loving you  
(If you're out of this when I'm all in, I need a warning)

Don't leave me, loving you, babe  
Whatever you do, babe  
Don't leave me, loving you, babe  
Whatever you do, babe  
Don't leave me, loving you, babe  
Whatever you do, babe  
Don't leave me, loving you, babe  
Ooh, babe

Don't leave me, loving you  
Whatever you do  
Don't leave me, loving you  
(If you tip toe out in the morning, I need a warning)  
Don't leave me, loving you
