

# Not For Me

Jackson Wang

I've been floating in space  
Trying to find a place to be  
Pull me out of this state  
And get me a moment of peace  
Wasn't it supposed to be simple?  
Guess not for me  
Not for me

Human, I just need something human  
What the fuck am I doing?  
A puppet on strings  
I stay running, getting ahead of nothing  
Wonder who I'm becoming  
Who should I be?

Every night I fly away  
Looking for my outer space  
I  
Let it go, let it go, let it go, let it go

I've been dreamin'  
Dreaming of life out the void  
It's like I'm screaming  
Trying to shout through the noise

I mask up every chance that I get  
Paint on a smile while I'm holdin' my breath  
Drownin' myself in a pool of regret  
I wish I had wings

Every night I fly away  
Fly away  
Looking for my outer space  
I  
Let it go, let it go, let it go, let it go

I've been dreamin'  
Dreaming of life out the void  
It's like I'm screaming  
Trying to shout through the noise

I've been floatin' in space  
Trying to find a place to be  
Wasn't it supposed to be simple?  
Not for me
