

ON THE ROCKS

Jackson Wang

Bought a tequila on the rocks, aye yeah
Couple shots I couldn't stop, aye yeah
All I could think about was you...
All I think about is you...

Stumblin' about to drop, aye yeah
More shots couldn't stop, aye yeah
All I could think about was you...
All I think about is you...

¿Que tal mami? Where you been tho? yeah
I see ya posse kinda cutthroat, yeah
But I ain't tryna start an uproar, yeah
But you're the one I saved my love for, yeah
But your family never bought it, yeah
Now your brother tryna stop me, yeah
What the hell did I get into, yeah
When all I want is to be with you, yeah

Got my problems on my mind like all night
Drinking just tryna get my head right
Couldn't see the stop signs like a red light
Before I pour it down I'll say

Bought a tequila on the rocks, aye yeah
Couple shots I couldn't stop, aye yeah
All I could think about was you...
All I think about is you...

Stumblin' about to drop, aye yeah
More shots couldn't stop, aye yeah
All I could think about was you...
All I think about is you...

Takings shots just to numb the pain
'Cause it hurts when I hear your name
I don't even wanna close my eyes
'Cause you're the one I see when I dream at night
I wish I could let the feelings fade
'Cause it's killing me to live this way
I wish that we never said goodbye
I would die to see you one last time

Bought a tequila on the rocks, aye yeah
Couple shots I couldn't stop, aye yeah
All I could think about was you...
All I think about is you...
Stumblin' about to drop, aye yeah
More shots couldn't stop, aye yeah
All I could think about was you...
All I think about is you...
