

The Moment

Jackson Wang

Next to your body save a place for me
Lost in the moment waited patiently
Next to your body save a place for me
Place for me
Place for me

Don't lose the beat of the tempo
Don't fall too deep in your mental
Start off slow hands and then it's fast pace
Say I'm your number one
I don't do last place
Don't lose the beat of the tempo
Don't fall too deep in your mental
Start off slow hands and then it's fast pace
Say I'm your number one
I don't do last place
Last place

Baby did I forget to mention
You're the one that got my attention
Left that in the past they went missing
You the only star that I wish on
I want your ah ah ah ah ah ah ah ah
Passion make it burn like that (uh huh)
Waves send shocks all through my body
Thousand little heart attacks (ah ha ha)

Next to your body save a place for me
A place for me
Place for me
Don't lose the beat of the tempo
Don't fall too deep in your mental
Start off slow hands and then it's fast pace
Say I'm your number one
I don't do last place
Don't lose the beat of the tempo
Don't fall too deep in your mental
Start off slow hands and then it's fast pace
Say I'm your number one
I don't do last place
Last place
