

Sugarcoat

Jacob Banks

Sugarcoat me, give me something
I'll face the future in the morning
Say I'm flying when I'm falling
Every second is a moment

You know I just like to
Hear you say it like you mean it
Oh, you know I just like to
Hear you say it like you mean it

I spend my paper on nostalgia
Buying happy ever afters
If we never see the altar
Then we're going undercover

You know I just like to
Hear you say it like you mean it
Oh, you know I just like to
Hear you say it like you mean it

So won't you say it to me, baby
Just a little lie to me, baby
