

# Cinnamon Crush

Jacob Collier

I just want your body, babe  
By my side  
Candlelight inside, take a hold of me  
I said, oh la la la la  
You sweeten me open  
A little  
And I can't get you off my mind now  
I must've tried a hundred thousand times now  
But something 'bout that oh la la la la  
Is keeping me holding on  
And I can't let go now, oh (La la)

You give me a rush now, sugar (Say oh la la)  
You're my cinnamon crush now, sugar (Say oh la la, la la)  
We're keeping it hush now, sugar (Say oh la la, sugar, la la)

I just want you next to me  
By my side  
Won't you hold me close  
No slipping away  
It's like, oh la la la la  
'Cause I want you more than  
A little  
Been waiting for you all my life  
I never thought that I could find  
Oh, your love  
I think that I'm ready  
Take me on a sugar high (High, now)

You give me a rush now, sugar (Say oh la la)  
You're my cinnamon crush now, sugar (Say oh la la, oh-ah)  
We're keeping it hush now, sugar (Say oh la la)

I don't know which way the wind may blow  
I don't know if this will last for long  
But I know this feeling's real inside  
'Cause I can't get you off my mind  
Singing, oh (My mind, my mind, my mind)

Something 'bout you, laced with cinnamon  
Sweet shop, won't you let me in again  
Just stay forever  
Hush me up, then make me glow again  
Wake me up and kiss me slow again  
Just stay forever  
Something 'bout you keeps me up at night  
Touch me, tease me, bring me back to life  
Just stay forever (You're my cinnamon crush, my sugar)  
Take me to a place I've never been  
Endless sweetness, lift me up again  
Just stay forever (You're my cinnamon crush, my sugar)  
Forever
