

Witness Me

Jacob Collier

You tell me you're broken
Tell me it's over now
You say you're done hoping
You tell me all the lights gone out

Well, maybe you're lost then
Maybe you're far from home
If you only keep walking
You never will walk alone

'Cause when I'm with you
There's nothing that I wouldn't do
You're the one that I've waited for
To bring out the best in me
I'm out in the blue
I'm holding my hand out to you
You're the one that I've waited for
I'm holding onto you

I'm with you
I'm with you here
You're the light I need
In the dark I see
I'm with you
I'm with you here
You are all I see
You witness me

I know we haven't seen each other much
I've been gone for the last six months
And life isn't easy, so call when you need me
Dad's sick and your brother's not there
More drink 'cause nobody cares
But I believe in you deeply
You know you can lean on me

I'm here for you
In whatever you're going through
Whatever it is, you can tell me
I know you'd do the same

I'm with ya
I'm with you here
You're the light I need
In the dark I see
I'm with ya
I'm with you here
You are all I see
You witness me

Yeah, we made it further than we thought
Only hearing that they done was when they heard us in the court
We grew up in a place where bloody murder was the sport
I know a few gold medallists
And the thing that they serve, and you can't serve it on a fork
I rather it was bailiffs that was banging at your door
You can read about it, but you've heard it all before

Have mercy on 'em, Lord
I know You're with them in the storm even though it's hard to see
Had to print you on a shirt 'cause I knew you to a T
In a different situation, I'd imagine who you'd be
Have mercy on 'em, and be with 'em
And if grace doesn't cut it, then Your mercy will suffice
In this cold, dark world we just need a little light

Oh, I'm with you
I'm with you here
I'm with you here
You're the light I need
You're the light I need
In the dark I see
I'm with you
I'm with you here
You are all I see
You witness me
You are all I see
You witness me

You've been searching, and searching, but don't look away
