

# Don't Wanna Leave

Jacob Latimore

Yeah

Pick out what you want  
Know I got racks on me so pick out what you want  
You know I like watchin' you when you look undecided  
All of this drip around you, you feel like you drownin'

Don't wanna leave, you don't wanna leave no more  
Don't wanna leave, you don't wanna leave no more  
I stay on your mind, who make you feel like this?

I can think of many reasons  
But if you can't see it, we'll leave it at that  
When you sayin' you don't mean it  
When you leave you be runnin', comin' back  
Can't stay 'round for me when I got bags (And you fall)  
Deep in love with me when I count cash (And before)  
They really don't know, they ain't like that (They be there)  
Up all night, let's go everywhere  
You know you ain't playin' fair  
I know better than that to know this ain't rare  
I've been there  
You graduated and you bad  
You get Fendi just for that

Pick out what you want  
Know I got racks on me so pick out what you want  
You know I like watchin' you when you look undecided  
All of this drip around you, you feel like you drownin'

Don't wanna leave, you don't wanna leave no more  
Don't wanna leave, you don't wanna leave no more  
I stay on your mind, who make you feel like this?

Yeah, Latto

The way I put it on him, he ain't gon' never leave  
Catchin' flights to Italy, just to fuck overseas  
Tesla in that autopilot, climb into the back seat  
Know this pussy yours, don't gotta ask me (You know it)  
He let me hold the keys to that big body (Benz)  
This pussy just like it, ride good, with low mileage (Yeah)  
All them freaky texts, nigga I hope you 'bout it, 'bout it ('Bout it)  
One hit and you'll be havin' withdrawals without it

Yeah

Don't wanna leave, no, no (Don't wanna leave)  
Don't wanna leave, no, no (I got what you need)  
Don't wanna leave, no, no (He can't leave me alone)  
He can't leave me alone

Pick out what you want  
Know I got racks on me so pick out what you want  
You know I like watchin' you when you look undecided  
All of this drip around you, you feel like you drownin'

Don't wanna leave, you don't wanna leave no more  
Don't wanna leave, you don't wanna leave no more

I stay on your mind, who make you feel like this?
