

Signs

Jacob Latimore

Girl I should of read the signs
I should of read the signs
When ya switched sides the first time oh
Should I stay should I go
Should I run you never know
The signs
But the sex get me every time

Pussy done made me stay more than I should
But when ya body's calling me it's way too good
Ain't gotta do much all it takes is one look
The way the dress hugging round on ya waist
Make me wanna put the cake in my face

And I really thought we can make it
But you had to fuck around and break it
In two

Girl I should of read the signs
I should of read the signs
When ya switched sides the first time oh
Should I stay should I go
Should I run you never know
The signs
But the sex get me every time and that's on god

Running round town like you never knew me
Fucking on niggas sayin' that's ya homey
Circles run small when you big time
Gotta stay true when you mine
Ya old friend even told me that you did that
Y'all must've fell out this was get back
Knew you would trip if I fuck some other bitches
But since it's you it's none of my business

And I really thought we can make it
But you had to fuck around and break it
In two

Girl I should of read the signs
I should of read the signs
When ya switched sides the first time oh
Should I stay should I go
Should I run you never know
The signs
But the sex get me every time and that's on god

But the sex get me every time
