

Streets

Jacob Latimore

There's something about you that
Draws me in
Ready to give all of this up
For your hands
I've been all around the world
But no one compares to you, baby
Tell me what it is that you want
And I'll do what it takes

To erase the pain you felt from the ones before me
Girl, if I make mistakes
I would make it up to you before the morning
Baby, you don't have to worry, oh, no

'Cause I ain't in the streets no more
I'm tryna come home to you
For more than just one night
I ain't in these streets no more
Forever, it's just me and you
Locked in for a lifetime

Something about the way you control my mind
I could be in a crowded room
But still you gon' win every time
Trust, I'm serious, babe
Come and look in my eyes
I don't wanna rush a thing
I'm along for the ride

To erase the pain you felt from the ones before me
Girl, if I make mistakes
I would make it up to you before the morning
Baby, you don't have to worry

'Cause I ain't in the streets no more
I'm tryna come home to you
For more than just one night
I ain't in these streets no more
Forever, it's just me and you
Locked in for a lifetime
