

# Try Me

Jacob Latimore

I can get inside all of your head  
Bad girl  
Have you ran out to go and tell  
Somebody?  
Girl what you doing with all that hey?  
Bad girl  
Better be careful cause you might hurt  
Somebody

Oh yea, oh yea, yea baby  
You and I ride or die  
Hold me tight all through the night  
Oh yea, oh yea, yea baby  
Girl, I promise you  
You'll love everything I do

Try me, try me  
I bet you won't want no other, no other, no other  
Try me, try me  
I bet you won't want no other, no other, no other

I'm not giving up  
Baby, don't knock it till you try it out, try it out  
Try it out, try it out, try it out  
No, I'm not giving up  
Baby, don't knock it till you try it out, try it out  
Try it out, try it out, try it out

Come lil' momma, don't you be scared  
Bad girl  
I won't bite unless you say yeah, yeah  
Why you still standing way over there?  
Bad girl  
Them others don't got what I got right here

Oh yea, oh yea, yea baby  
You and I ride or die  
Hold me tight all through the night  
Oh yea, oh yea, yea baby  
Girl, I promise you  
You'll love everything I do

Prob me, try me  
I bet you won't want no other, no other, no other  
Try me, try me  
I bet you won't want no other, no other, no other

I'm not giving up  
Baby, don't knock it till you try it out, try it out  
Try it out, try it out, try it out  
No, I'm not giving up  
Baby, don't knock it till you try it out, try it out  
Try it out, try it out, try it out

I said don't knock it till you try, baby girl I never lie  
Never sleep, I'm always up, I'll probably sleep when I retire  
Even then I reincarnate myself and I'll be Mary White

I can't lie, she shot me down, man, that shit shot my brow  
You just don't know what you missing, you should come and join the team  
Join the team, never know, might fuck around and get a ring  
Turn you to a queen cause you want a movie screen  
Wouldn't try, take a hit, I get turned into a fiend  
Oh, no, now she OD-ing on the D  
Oh, no, there you go, OD-ing on the beat  
Baby, let me off the leash, I swear to God I am a beast  
You try to push your shit together, baby, I'm the missing piece

Try me, try me  
I bet you won't want no other, no other, no other  
Try me, try me  
I bet you won't want no other, no other, no other

I'm not giving up  
Baby, don't knock it till you try it out, try it out  
Try it out, try it out, try it out  
No, I'm not giving up  
Baby, don't knock it till you try it out, try it out  
Try it out, try it out, try it out
