

Easier

Jacob Lee

It's easier to breathe
It's easier to get up off my knees
Care about the food between my teeth
When she's beside me...

It's easier to laugh
Care about the dripping of our tap
Come to terms with the day I had
When she's beside me...

Still I said go
Do what you have to
As long as your back soon
Do what you have to...

It's easier to list
Things I often keep behind my lips
Talk about the mother that I miss
When she's beside me...

It's easier to wait
Here beside the son that we have raised
And stand before another day, & wish it was another day
Where you were here & I knew you were safe...

Still I said go
Do what you have to
As long as your back soon
Do what you have to...

4 years in one
5 years have passed though
6 years of love
No proof of that though
7 & 8, who do I pay?
To take all my memories & throw them away?

4 years in one
5 years have passed though
6 years of love
No proof of that though
7 & 8, who do I pay?
To take all my memories & throw them away?

So do what you have to
As long as you're back soon
Do what you have to...
