

I Just Know

Jacob Lee

Teach my lungs to breathe underwater
Teach my heart to beat without her
I taught her, I taught her

Guide my feet towards the alter
Close my hands and wait for an answer
I caught her, I caught her

Keep my secrets close, our hearts aligned
I see darkness where you see light
Emotions fold, our blood runs dry
I see a future inside your eyes

We're fading out again
We're fading out again oh

She said...

This world isn't big enough to live it on your own
I see fire in your eyes and I feel fire in my soul
You're gonna make it through this I just know

Keep it in your heart, it's buried deep within your bones
Don't you come home, or I will never let you go
You're gonna make it through this I just know

Keep my secrets close, our hearts aligned
I see darkness where you see light
Emotions fold, our blood runs dry
I see a future inside your eyes

We're fading out again oh
We're fading out again oh

She said...

This world isn't big enough to live it on your own
I see fire in your eyes and I feel fire in my soul
You're gonna make it through this I just know

Keep it in your heart, it's buried deep within your bones
Don't you come home, or I will never let you go
You're gonna make it through this I just know

The world isn't big enough to live it on your own
I see fire in your eyes and I feel fire in my soul
You're gonna make it through this I just know

Keep it in your heart, it's buried deep within your bones
Don't you come home, or I will never let you go
You're gonna make it through this I just know
