

# High

Jacob Sartorius

I've been getting high like every second of the day  
Just thinking about the way your cherry ChapStick tastes  
Sweet  
Sweeter than the fruit in the trees  
Sweet

I've been hoping to fall in love with you hope it don't ever change  
When you say my name I feel a rush it would be hard to explain

High, high  
When I think about you  
High, high  
When I think about you

I've been getting drunk like every second of the day  
Just been drinking to the way your cherry ChapStick tastes  
Sweet  
Sweeter than the fruit in the trees  
Sweet

I've been hoping to fall in love with you hope it don't ever change  
When you say my name I feel a rush it would be hard to explain

I've been hoping to fall in love with you hope it don't ever change  
When you say my name I feel a rush it would be hard to explain

High, high  
When I think about you  
High, high  
When I think about you  
High, high  
When I think about you
