

# makeup your mind

Jacob Sartorius

You don't need no makeup, you just gotta make up your mind  
Is it fake love? Do you feel you're wasting your time?  
This one's up to you  
Yeah it's for you to decide  
Like the stars and the moon  
Sometimes they just don't align

I'm in my head  
With words you don't say now  
Leave me for dead  
Or be my best friend now  
So many nights where I sit with my broken heart  
Too many times where I think we're gonna break apart

Demons are fighting with me  
I'm in my bed losing sleep  
It's been a couple of weeks  
Days flying by like I run through my weed  
I want you right here with me  
We could be so much more than you could dream  
When you on my mind yeah my heart skip a beat  
All I can think is

You don't need no makeup, you just gotta make up your mind  
Is it fake love? Do you feel you're wasting your time?  
This one's up to you  
Yeah it's for you to decide  
Like the stars and the moon  
Sometimes they just don't align  
No makeup, you just gotta make up your mind  
Shouldn't we say stuff if it's sitting there all the time?  
Been getting so high  
A lost kid on the moon  
Up to you to decide  
I'd rather be there with you

You (I'd rather be there with you)  
You

Verse two, it's still you, your perfume  
In my room, I don't know at about noon  
Then real late you slide through, I say I love you  
I'm a little stressed out, should've warned you

Demons are fighting with me  
I'm in my bed losing sleep  
It's been a couple of weeks  
Days flying by like I run through my weed  
I want you right here with me  
We could be so much more than you could dream  
When you on my mind yeah my heart skip a beat  
All I can think is

You don't need no makeup, you just gotta make up your mind  
Is it fake love? Do you feel you're wasting your time?  
This one's up to you  
Yeah it's for you to decide

Like the stars and the moon  
Sometimes they just don't align  
No makeup, you just gotta make up your mind  
Shouldn't we say stuff if it's sitting there all the time?  
Been getting so high  
A lost kid on the moon  
Up to you to decide  
I'd rather be there with you

(You, you)

(Makeup)  
(Fake love)  
(One's up to you)  
(Stars and the moon)
