

Nothin' With You

Jacob Sartorius

Usually I would be out on a Friday night
Uh, out with some friends of some friends that I barely like
I, I'm typically right where I want, when I wanna be
But girl tonight, I'm wherever you need me
Usually you would stay in on a Friday night
Chillin' at home on your couch for the book you like
I love how your right where you want, when you wanna be
But girl tonight, you should be next to me

Yeah, there's a million places
With some pretty faces
I think we could get along
Yeah, there's a thousand parties
In this city probably
But here we could be alone

'Cause I got to do
Nothin' with you, nothin' with you, nothin' with you
'Cause I got to do
Nothin' with you, nothin' with you, nothin' with you
I got to do
Nothin' with you, nothin' with you, nothin' with you
I got to do
Nothin' with you, nothin' with you, nothin' with you

My favorite spot is aboard of the melting pot
Uh, running 'round Hollywood like I wanna get caught
I wanna run to the canyons and blow someone through your hair
But I slow down if that feeling makes you scared

Yeah, there's a million places
With some pretty faces
I think we could get along
Yeah, there's a thousand parties
In this city probably
But here we could be alone

'Cause I got to do
Nothin' with you, nothin' with you, nothin' with you
'Cause I got to do
Nothin' with you, nothin' with you, nothin' with you
I got to do
Nothin' with you, nothin' with you, nothin' with you
I got to do
Nothin' with you, nothin' with you, nothin' with you

Your favorite place to be is in your bedroom sheets
Uh, don't feel like squeezing inside of your skinny jeans
I, sweatpants and ponytails, I know it's what you vibe
Lucky for me, that's exactly what I like

I got to do
Nothin' with you, nothin' with you, nothin' with you
'Cause I got to do
Nothin' with you, nothin' with you, nothin' with you
I got to do
Nothin' with you, nothin' with you, nothin' with you

I got to do
Nothin' with you, nothin' with you, nothin' with you
