Problems

Problems
I don't want no problems
Keep on talkin' shh

You just can't resist
Oh causin' all these problems
You think that you're ballin'
Keep on talkin' shh

Just wait 'til you get hit
That's not my problem

Somebody needs to wipe
That smile off your face
The world don't need another jerk
That loves to hate

Quit bringing' all that negative energy
If you got nothin' nice to say
Then maybe you should pump the brakes

When you gonna learn to shut your mouth
I'm not a violent person
But you bring it out
I just gotta cool it down
Cool it down
Cause I don't funk with

Problems
I don't want no problems
Keep on talkin' shh

You just can't resist
Oh causin' all these problems
You think that you're ballin'
Keep on talkin' shh

Just wait 'til you get hit
That's not my problem

Uh huh
Yeah

Why would I put myself in the ring
When I could sit back
And let karma do it's thing

So Ima just pour myself up a drink
They always say to pick your battles
Cause every fight ain't worth the hassle

Yeah

When you gonna learn to shut your mouth
I'm not a violent person
But you bring it out
I just gotta cool it down

Cool it down
Cause I don't funk with

Problems
I don't want no problems
Keep on talkin' shh

You just can't resist
Oh causin' all these problems
You think that you're ballin'
Keep on talkin' shh

Just wait 'til you get hit
That's not my problem
