

Up With It

Jacob Sartorius

Yeah, yeah, yeah
Yeah

I've been, been waiting all day for your voice to come
Singing, singing my name through the noise

So call me in the morn'
I'm never alone
I'll pick up the phone
Ring me up tonight, anything you like
I can make the time
You're the only one I wanna hear it from rolling off the tongue
'Cause nothing compares to when you

When you call me baby
You know I'm up with it, I'm up with it, I'm up...
When you call me baby
Girl, I can't front with it, I can't front with it, I can't front

No, I'm not ashamed to say
I'm feeling some type of way
My heart's tripping over my feet
When you call me baby
You know I'm up with it, I'm up with it, I'm up...
Up with your love

Those lips are making me fall to my knees
And it's so lit
When you give me that verbal affection
I'm sweating

So call me in the morn'
I'm never alone
I'll pick up the phone
Ring me up tonight, anything you like
I can make the time
You're the only one I wanna hear it from rolling off the tongue
'Cause nothing compares to when you

When you call me baby
You know I'm up with it, I'm up with it, I'm up...
When you call me baby
Girl, I can't front with it, I can't front with it, I can't front

No, I'm not ashamed to say
I'm feeling some type of way
My heart's tripping over my feet
When you call me baby
You know I'm up with it, I'm up with it, I'm up...
Up with your love

No, I'm not ashamed to say
I'm feeling some type of way
My heart's tripping over my feet

When you call me baby
You know I'm up with it, I'm up with it, I'm up...

Up with your love
