

## Used To

Jacob Sartorius

You can't bring me down like you used to  
'Cause I won't be around like I used to  
And you can't bring me down like you used to  
'Cause I won't be around like I used to

I'ma be gone  
A galaxy far far away from it all  
I'm writing all these songs so you know that you was wrong  
Just know that you'll regret it when you get it through your skull  
That I coulda been the one for you  
But he posting all these pictures saying he misses you  
One day if he kisses you like I did, close your eyelids  
Girl you still an individual so you can go and do the things  
Your mind says, to be honest

But baby girl I know, whoa, whoa, whoa  
That it's hard to let you go, whoa, whoa, whoa

You can't bring me down like you used to  
'Cause I won't be around like I used to  
And you can't bring me down like you used to  
'Cause I won't be around like I used to

'Cause I'ma be gone  
Doing all these shows just to let you know I'm on  
Just know that you'll regret it when you finally get my calls  
We running round in circles, this feel like a marathon  
But I'm tryna finish strong for ya  
And I don't know the things he's telling you  
Hope it doesn't get to you, you blinded from my silence  
And I hope that you can fit me in your schedule  
Girl you are so incredible, but now I'm sitting quiet

Waiting for you to know, whoa, whoa, whoa  
That it's hard to let you go, whoa, whoa, whoa

You can't bring me down like you used to  
'Cause I won't be around like I used to  
And you can't bring me down like you used to  
'Cause I won't be around like I used to
