

dangerous

Jacob Whitesides

I'm tryna dance with you
But I don't know this song
I'm tryna sway with you
But all my time is wrong

I'm having trouble believing when you say you're leaving
Just when we start getting closer, you're walking away
I'm having trouble explaining the things that I'm feeling
That I'm feeling, oh-oh-oh

I feel something dangerous, where were the warning signs?
I feel something dangerous, the time is not right
I feel something dangerous, something like paralyzed
I feel something dangerous, right girl, wrong time

I'm tryna feel with you
But all the lights are off, oh
Make love that's real, so real with ya
Before the night is lost

I'm having trouble believing when you say you're leaving
Just when we start getting closer you're walking away
I'm having trouble explaining the things that I'm feeling
That I'm feeling, oh-oh-oh

I feel something dangerous, where were the warning signs?
I feel something dangerous, the time is not right
I feel something dangerous, something like paralyzed
I feel something dangerous, right girl, wrong time

I'm tryna feel with ya
Trying to feel for ya
I'm tryna feel with ya
I'm tryna feel with ya, feel with ya

I feel something dangerous, where were the warning signs?
I feel something dangerous, the time is not right
I feel something dangerous, something like paralyzed
I feel something dangerous, right girl, wrong time
I feel something dangerous, where were the warning signs?
I feel something dangerous, the time is not right
I feel something dangerous, something like paralyzed
I feel something dangerous, right girl, wrong time
