

Heartbeat

Jacob Whitesides

Never got one word in
Never got one night out
Don't know what she's got
Everybody wants her now
Just watching the clock wind down down down
Lemme get a second with your heartbeat
So I can finally find the rhythm I need
Tell me what you're thinking
Do you want me?
Lemme get a second with your heartbeat
Now that you finally see
The writing's on the wall
Honey he brought you down
But he's not your fault
Pull me closer, let me hear that sound right now
Lemme get a second with your heartbeat
So I can finally find the rhythm I need
Tell me what you're thinking
Do you want me?
Lemme get a second with your heartbeat
Beating's getting loud
Heart is slowing down
Time is running out
Time is running out
Beating's getting loud
Heart is slowing down
Time is running out
Time is running out
Beating's getting loud
Heart is slowing down
Time is running out
Time is running out
Lemme get a second with your heartbeat
So I can finally find the rhythm I need
Tell me what you're thinking
Do you want me?
Lemme get a second with your heartbeat
Lemme get a second with your heartbeat
So I can finally find the rhythm I need
Tell me what you're thinking
Do you want me?
Lemme get a second with your heartbeat
