

Levitate

Jacob Whitesides

He doesn't understand you and it's easy to see
He can't make you float, girl, he's not like me
Time and time again he's let you down
You should find some loving off the ground

Cuz if he's shady then you need to let him go
If he's lazy then he's not the one to hold

If you don't le-le-le-le-levitate
Then le-le-let me take his place
He ain't worth your time and space
If you don't le-le-le-le-levitate

You got something special but not with him
You need so much more, girl, than he can give
Time and time again he's let you down
But if you wanna fly I can show you how

Cuz if he's shady then you need to let him go
If he's lazy then he's not the one to hold

If you don't le-le-le-le-levitate
Then le-le-let me take his place
He ain't worth your time and space
If you don't le-le-le-le-levitate

If he doesn't make you high
Why do you waste your time?
I won't hold you down like gravity
We'll float right through the air just you and me
Just you and me

If you don't le-le-le-le-levitate
Then le-le-let me take his place
He ain't worth your time and space
If you don't le-le-le-le-levitate
Let me take his place
He ain't worth it baby
