

# Rules of Beautiful

Jacob Whitesides

You're an angel in disguise  
When you call on your eyes  
But angles don't need covering.

You're a princess, you're a queen  
You don't need finer things  
But I'll buy you diamond rings just because.

Cause you break the rules of beautiful  
So stay with me for many more  
No need to fix what's beautiful, you're beautiful.

Like a flower all alone in a field of weeds  
You don't need to change you just need to be  
The way you were made is just for me  
You're beautiful, cause you break the rules of beautiful,

The rule, cause they are over looked your heart  
But we got history that deeper than these scares.  
Oh and I'll take it all, all of your secrets and flaws  
You make history by being who you are

Cause you break the rules of beautiful  
So stay with me for many more  
No need to fix what's beautiful, you're beautiful

Like a flower all alone in a field of weeds  
You don't need to change you just need to be  
The way you were made is just for me  
You're beautiful, you break the rules of beautiful  
Oh you're beautiful, oh you're beautiful, oh you're beautiful

Cause you break the rules of beautiful  
So stay with me for many more  
No need to fix what's beautiful, you're beautiful

Like a flower all alone in a field of weeds  
You don't need to change you just need to be  
The way you were made is just for me  
Your beautiful you break the rules of beautiful  
If I re-wrote the rules for beautiful  
I would trace you on a page and put it up  
So the whole wide world can finally see whats beautiful you  
Break the rules of beautiful
