

She Ain't Got a Thing

Jacob Whitesides

She's got a thing for the catch and the chase
She won't fall in love
She likes to mess with fate
And she walked right up before she walked right out on me

Cards on the table
You get what you see
She said, "I'll be the school, education on me"
Then she walked right up before she walked right out on me

She's got a thing for turning on the nice guys
Come back to town just to prove she'll get you two times
She's got a thing and I'm warning you
She ain't got a thing for me
She ain't got a thing for you

She's 'bout that capture and the release
She's on the hunt for the very next me
Yeah she walked right up before she walked right out on me

Her smile is evil
Wrapped up in sin
She'll leave you praying that the night won't end
And she walked right up before she walked right out on me

She's got a thing for turning on the nice guys
Come back to town just to prove she'll get you two times
She's got a thing and I'm warning you
She ain't got a thing for me
She ain't got a thing for you

Get out while you got your cash
Get out while you got a chance
Get outta here while you still got a chance
Get the...

She's got a thing for turning on the nice guys
Come back to town just to prove she'll get you two times
She's got a thing and I'm warning you
She ain't got a thing for me
She ain't got a thing for you
