

## Mercy Killing

Jacobs Dream

In the night I cry why must this be  
Father won't you let this pass from me  
All those words I've spoken to your people  
That led to this final hour it must come to pass  
The pain and agony man's rage will come for me  
I'm guilty of no crime but I will pay this price  
Sin is ever present I shall do what I must  
The gates of Hell and it's king I will crush

My body is broken the pain is beyond belief  
They curse my name and abuse me with no relief  
I fight for every breath as I walk  
The time has now come I must complete this task  
Father forgive them they don't know what they do  
I now take this burden in the name of love  
History will turn the curtain will be torn  
And in three days I shall arise

For you my life I give my sacrifice so you can live  
This mercy killing will set you free if you will only follow me

Now I hang before them bleeding for their souls  
The hate me and scorn me yet I love them so

The storm is coming soon the pain is almost through  
The salvation of man shall be born  
It is finished I shout with my last breath  
I now have my victory I've taken the keys of death  
The enemy's defeated for those who will believe  
The gates of heaven are open at last

For you my life I give my sacrifice so you can live  
This mercy killing will set you free if you will only follow me

Who will follow me
