

What's up babe you been on my mind all day
I was up late somehow I can't give you space
How 'bout I hop in the whip and head your way?
How long it'll take for you to get ready?
I got time on my hands, my lips by your belly button
Don't you be scared denim girl I'll bust them buttons
Damn, am I invited?
Don't just sit here in silence

Tell me what it's about
(What it's all about)
Tell me what it's about (About)
You been running your mouth
Talking 'bout how it goes down
Well baby that's a 10-4 (10-4, 10-4)
Tell me what it's about (About)
Tell me what it's about (About)
You been running your mouth
Talking 'bout how it goes down
Well baby that's a 10-4 (10-4, 10-4)

Feel like forever I know we ain't together
I think we could be special but ion know
I ain't tryna be extra feel like I had to tell you
You know I'm down for whatever
That's a 10-4
I know they hate
I'ma take you on this ride
I'll pick you up late
Working at you every night
I bet your friends say, this nigga gon get you fired
Too much on your mind so I gotta keep you ready
See you again put you in some new positions
Don't you be scared
If I fuck your hair up I'll fix it
Yeah, are you excited?
Don't you sit here in silence

Tell me what it's about
(What it's all about)
Tell me what it's about (About)
You been running your mouth
Talking 'bout how it goes down
Well baby that's a 10-4 (10-4)
Tell me what it's about (About)
