

All Night

Jacquees

Callin, she's callin, callin, keeps callin my phone, she say she want me to come over after I leave the studio, she wanna hear that new beat that I'm singing on, she say Jacqueses, that's my favorite song, I can play it all night long, rewind it, play it, play it all night long

You'll be in here singin my melodies all night, all night
Climb on top and add the harmonies all night, all night long
We gone play yo favorite song all night, all night
Girl we gone play yo favorite song all night, all night long

She said [x3]
I know you made this just for me (yea), ooh girl I must confess, I love the way you ride that beat, if you wanna, I know you wanna, ooh baby if you wanna, I can play it all night long, rewind it, play it, play it all night long

You'll be in here singin my melodies all night, all night
Climb on top and add the harmonies all night, all night long
We gone play yo favorite song all night, all night
Girl we gone play yo favorite song all night, all night long

You'll be in here singin my melodies all night, all night
Climb on top and add the harmonies all night, all night long
We gone play yo favorite song all night, all night
Girl we gone play yo favorite song all night, all night long

Turn it up, don't turn it down, turn it up, cause tonight it's going down

You'll be in here singin my melodies all night, all night
Climb on top and add the harmonies all night, all night long
We gone play yo favorite song all night, all night
Girl we gone play yo favorite song all night, all night long

All night, all night, yea
