

# Back To Me

Jacquees

Really I don't need no baby mama  
Lately I don't need no referee  
By myself I found the bigger issue  
Issue is you got no love for me

On and on you do me wrong  
Guess it's the same ol song  
Really wish you didn't come my way  
Try me once, you've lost your mind  
Do it twice, I'm on the line  
Wishing you didn't want me to stay

Like I said a million times  
What you do gone come right back to me  
And I ain't falling for your lies baby  
What you do gone come right back to me  
Just give it time  
I find the things you hide inside  
I know your game baby  
I've been a liar too  
You can't keep it real, I guess that I'm through with you

Maybe I've been kinda inconsistent  
Maybe I've been too in touch with me  
By myself I found the bigger issue  
Issue is you got no love for me

On and on you do me wrong  
Guess it's the same ol song  
Really wish you didn't come my way  
Try me once, you've lost your mind  
Do it twice, I'm on the line  
Wishing you didn't want me to stay

Like I said a million times  
What you do gone come right back to me  
And I ain't falling for your lies baby  
What you do gone come right back to me  
Just give it time  
I find the things you hide inside  
I know your game baby  
I've been a liar too  
You can't keep it real, I guess that I'm through with you
