Nash B chilling

I got your silhouette in my head  
Hit me right away, don't leave me on read  
I still got me and you in my plan  
Don't tell me somebody's been in your bed  
If you don't pick up on the first call  
I start think about what you doing  
Like what you doing in the dark?

Wanna be bad? Then be bad for me  
That's right, come get in your bag for me  
Be nasty, you only do that for me  
Undercover freak (Oh, oh, oh)  
Undercover freak (Oh, oh, oh, oh)  
Ooh, ooh, undercover freak (Oh, oh, oh, oh)  
Undercover freak (Oh, oh, oh, oh)

Seems like you ready  
Took some time, now I got you on my sleeve  
I love it when you talk like that to me  
Lately I've been chasing after both my dreams  
Soulful morning  
I can't take it early in the morning  
I'm so shy, what you see in me?  
Lady in the streets, freak in the sheets  
I've been dodging all of his calls all week

I know how long you can take it  
How many shots to get you wasted?  
The convo that's gon' get you naked  
That ass sit right, ain't go the cheap route  
Spread it out, how you want it?  
Climb, jump on it  
I know that you're horny  
It's going down at the function  
How bad do you want it?  
Your nigga ain't on it, yeah

Seems like your ready, yeah, mm  
Mm, oh, yeah  
Seems like your ready  
Seems like your ready
