

# Be With You

Jacquees

Came with her man but I made her think twice  
Know that she wrong but I made it seem right  
Skip all that talking all I need is one night  
Tell me what you want I'll change your life  
Can't be my lady I can put you on a day shift  
Got a hundred yous it ain't nothing to replace this  
It's between me and you, no I don't got to explain it  
Long as you don't say shit

Can you make it nasty?  
Feeling on your body in my backseat  
Rich sex is the best if you ask me  
I keep my chains on if you want it flashy  
I know you wit it 'cause I'm wit it all day  
Once you get it you gon' want it always  
That man ain't around call me  
He gon' have to drop it once I'm on offense, can't nobody stop this

Yeah, yeah  
Baby let me know what you tryna do  
I don't see no one else in this club, it's just me and you  
We could slide tonight and make a move  
Leave your boyfriend on the sideline I'm tryna be with you  
Be with you  
Be with you

Bad bitch you can do what you want to  
Messing with them broke niggas gon' cost you  
He was playing hide and seek, and he lost you  
May not be what I need but I want you  
Stars in the ceiling got you feeling like a boss  
Well put together but it's time to take it off  
You ain't mine so I'm giving you this warning  
You gon' have to disappear in the morning  
Morning

Can you make it nasty?  
Feeling on your body in my backseat  
Rich sex is the best if you ask me  
I keep my chains on if you want it flashy  
I know you wit it 'cause I'm wit it all day  
Once you get it you gon' want it always  
That man ain't around call me  
He gon' have to drop it once I'm on offense, can't nobody stop this

You know when you shake, I'm on that ass  
You know I love when you make it nasty  
You know you get that ass from your Mama  
And your Grandmama done added to it if you ask me

I don't want to waste no time with you  
Gym class how shawty running fitness on my mind  
She got a couple set of rules I abide by  
So bad I'd even fuck that pussy as a side guy  
Top down, it's me and Que bitch  
I only popped out, for her to see me yeah  
I'm tryna get you flyer than a G6  
That red and orange foreign like a pack of Cheez-Its  
Quit playing with me shawty come running  
Licking your body 'til the night come up out it  
Said I can make her squirt  
She said "I doubt it"  
And then I made her squirt  
And she shouted

Yeah, yeah  
Baby let me know what you tryna do  
I don't see no one else in this club, it's just me and you  
We can slide tonight and make a move  
Leave your boyfriend on the sideline I'm tryna be with you
