

Bed Friend

Jacquees

Best friend to my bed friend
Best friend to my bed friend

Started off as best friends
Now you my bed friend
Whole big relationship
Girl, this a blessing
See we started off as best friends
Now you my bed friend
Whole big relationship
Hope this don't dead end

I had a girl, you had a man
One thing I didn't understand
Is how you be on my mind?
Feeling like guilty like it's a crime
We be texting, talking all day
But it's so many things I want to say
Like, I'm tired of pretending
Not to mention, no attention
Tired of pretending
My attention's got restrictions
Listen closely, let me tell you how I feel
Girl you know this shit we got right here is real

Started off as best friends
Now you my bed friend
Whole big relationship
Girl, this a blessing
See we started off as best friends
Now you my bed friend
Whole big relationship
Hope this don't dead end

My best friend
That turned into my bed friend
See we started off as best friends
Now you my bed friend
Whole big relationship
Hope this don't dead end

Started off as your best friend
Now my love, you can't question
How the hell did we go from kicking it to sexing?
Ooh, it's a very risky situation
Ah, can't let my emotions overtake me
First was innocent, then you put down and got all in
Mind was telling me to say no
But my body wanted it
Baby now I just can't get enough
Hope you fall in love, love

Started off as best friends
Now you my bed friend
Whole big relationship
Girl, this a blessing
See we started off as best friends

Now you my bed friend
Whole big relationship
Hope this don't dead end

My best friend
That turned into my bed friend
See we started off as best friends
Now you my bed friend
Whole big relationship
Hope this don't dead end

Girl your body's calling me
You're my bed friend
Ooo, I
