

Can You Handle It

Jacquees

You know I ain't never felt like this before
Never in my life
Twenty sumn' years and I never felt like this

Girl, I just came here (Yeah)
Because I wanted to play, baby (I did)
I got some bands to blow (To blow)
So go take it off and get it started
Girl, I love how you're participating (Yeah)
Put that ass on me, we want more
You're doing it good enough (Yeah)
Let's go for highs 'til you get enough (Ah)
You know that pussy is mine

Can you handle it if I said I was crazy 'bout you? (Ooh, what if I said I?)
Tonight, I'll plan it out (Yeah)
No time to think about it
Tell me, can you handle?

Now that you're here, bae
I got a different type of situation (Lemme tell you)
I got girls on my line tryna go (I ain't gon' lie though)
And I can tell, by your face, you're losing patience (It's okay)
Girl, you sexy when you dedicated (Take your clothes off)
So, when you're alone (Alone), just know that you're the one (You're the one)
You're better than good enough (Better)
Show me where you'll find a better love (There's no better)
'Cause you've been searching for so long (You know I did some time)
I seen your heart, I had to penetrate it (I had to get it)
If I give my all, baby, tell me, can you handle it?

Can you handle it if I said I was crazy 'bout you? (Ooh, if I said I?)
Tonight, I'll plan it out (Plan it out)
No time to think about it
Tell me, can you handle? (Can you handle?)
