

# Christmas Without You

Jacquees

Rich Gang  
Rich Girl

Got my mama a new car and a bag (a bag)  
Bought my nephew everything I never had (had)  
Bought my sisters everything that's Designer in the store, yeah (Designer)  
Copped my partner a new bracelet for his wrist  
Splashed on myself and blew some money on the fit (yeah)  
Make sure everybody's happy, but I still need more

'Cause you ain't pick up in September, or October, remember?  
Now they tellin' me that you found a new man in November  
Left the gift at the crib, if you want it, you can slide through, yeah  
I did you cold like the weather  
Yes, I shoulda' known better  
Shoulda' treat you like a Queen, now I'm writin' love letters  
Left the gift at the crib, if you want it, you can slide through, ooh  
Christmas without you (Christmas)  
Promise that it hurt so bad  
I just want this day to be through (be through)  
Christmas without you (without you)  
I really shouldn't be this sad (I shouldn't be)  
But what do you want me to do?

Filled your stocking up with gifts by the fireplace (place)  
Filled it with everything you want (you want)  
But from the looks of it, I might not see your face  
I just might be lonely for once  
Around Thanksgiving, you told me you need some space  
I can't pull up to your mama house and get a plate  
Well, I done sacrificed three-hundred sixty-five days  
I'm not gon' care about your Valentine's Day

'Cause you ain't pick up in September, (pick up) or October, remember?  
Now they tellin' me that you found a new man in November (new man in November)  
Left the gift at the crib, if you want it  
You can slide through, yeah (it'll be there for you)  
I did you cold like the weather  
Yes, I shoulda' known better  
Shoulda' treat you like a Queen  
Now I'm writin' love letters (love letters)  
Left the gift at the crib  
If you want it, you can slide through, ooh (slide through)  
Christmas without you (without you)  
Promise that it hurt so bad (it is hurtin' me)  
I just want this day to be through (to be through)  
Christmas without you  
I really shouldn't be this sad (shouldn't be this sad on this day)

But what do you want me to do? (what you want me to do?)
