Closure

Jacquees

Oh

Too many days where I pushed you away and
Too many nights you and I both done lied
Too many texts 'bout the past, why you playin'?
Did what I did but I'll never play you twice
I can't keep doing what I keep on doing
I can't be trusted, I lie too far
Hope to refill what your heart's been missing
Let me unbreak your broken heart

Every time I need closure, closure
Fuck around and get closer to you
Don't trip, don't you say that it's over
I done detoxed, now I'm sober
Baby, make me feel something
Why you hang shit over my head like that?
How'd you do it, baby?
I don't really want closure, closure
Baby, lemme get closer to you

I admit that I've been stressed
You the one that knows me best (Cut those off)
They can wait (All I want)
Is my baby
You say "nigga," I say "bitch"
I say "sorry," you still trip
Lay you on the ground, flip that ass around just like you like it
No cameras on the vacays
Late text, conversations
Break up and the news break
Make up and it's too late
Baby, it's a new day (New day)
Stop looking for new baes (And every time)

Every time I need closure, closure (I need your closure)
Fuck around and get closer to you (No, no, oh, don't)
Don't trip, don't you say that it's over
I done detoxed, now I'm sober (I'm sober)
Baby, make me feel something (Yeah)
Why you hang shit over my head like that? (Like that)
How'd you do it, baby? (Like that)
I don't really want closure, closure (No, oh, oh)
Baby, lemme get closer to you
