

Forever

Jacquees

I had big dreams for us baby
Like I was on lean for us baby
Just tryna get by
So I won't feel the pain again
So we began to cheat on love
And it became painfully clear
That we
We were simply just not made to be

But I guess forever doesn't last too long
Forever doesn't last too long
Forever doesn't last too long these days, hey
And I tried to believe that we could make it
But trying don't work so I just have to face that
Forever doesn't last too long these days

Still think about the good times we've had
And how I use to make you laugh
But baby I know
Most times
We were miserable
So every time I want some love
Baby what always helps
Is when I think of the pain
And I realize
I'm better off by myself

Cause forever doesn't last too long
Forever doesn't last too long
Forever doesn't last too long these days
And I tried to believe that we could make it
But trying don't work
So I just have to face that
Forever doesn't last too long these days
