

# Get You

Jacquees

Quemix 3 don't get this shit confused I really fuck with Daniel Caesar yall, I like this song

Through all my challenges, police in my window  
My baby has never turned on me  
A real one yeah she be, god made her for me  
Don't never let nobody make you turn on me

Baby you're my drug you get me high I feel it  
You're all I need  
Every time we kiss and close eyes I feel it

Who, who would've thought id get you  
Who, who would've thought id get you

Lets make some more love  
The first time wasn't enough for me, for me, baby  
It's only the two of us  
Let's play out our fantasies right on top of your sheets  
Girl your mine

Baby you're my drug you get me high I feel it  
You're all I need

Who, who would've thought id get you  
Who, who would've thought id get you  
Oh yeah, oh yeah babe, oooh

Don't you like when I come around  
(Don't you like when I come around)  
Don't you like when I come around  
(Don't you like when I come around)  
Don't you like when I come around  
(Don't you like when I come around)

Who, who would've thought id get you  
Who in the hell would've thought id get you  
Who in the hell would've thought id get you  
Who, who would've thought id get you  
I'm so glad I'm so happy yeah  
Who, who would've thought id get you  
Who in the hell would've thought id get you  
It'd be me and you  
Who, who would've thought id get you  
Oh yeah  
Who, mmm
