

I Remember

Jacquees

Do you remember, the late night in December?
Took you to dinner
Left in the lamb chop, the whole ride to the crib playing in my
dreadlocks
Pulled up in your driveway, 5428 Castleberry Lane
Told me this could go my way
This night was ten for ten
Remember what we did?
Took a shower
Played some music
Lotioned up
Just on some cool shit
Time passed then
Cut on a good movie
But we don't watch it
I feel on your booty

I remember
The first time we stayed up fucked all night
I remember
You did everything I said do
Headboard beating up the bedroom
I remember

From the pillows to the sheets
We chest to chest I can feel your heartbeat
I remember
The way you spread your legs
I'll never forget

I remember
The first time we stayed up fucked all night
I remember
You did everything I said do
Headboard beaten off the bedroom
I remember

Spread, spread, spread
Spread, spread, spread
